

## Walk 6. Sunday October 4<sup>th</sup>.

### A Vauxhall Crawl!

Our final walk takes us to a brand new and still developing part of London that is Vauxhall. Swiftly becoming a huge collection of skyscrapers, we will wend our way from the riverside through the fringes of New Covent Garden Market before arriving at Embassy Gardens and the site of the new US Embassy. We'll have James Bond, Richard Rogers and John Major for company and we'll have the Thames and a hidden river to spot. There's a brand-new tube station and a new "Food Exchange". But best of all? The swimming pool in the sky - hear how it was constructed, transported and hauled into place. And if it's warm we'll be looking up in the hope of seeing someone swim from one building to the next in sheer ignorance of us standing below.
